## **DEFINITIONS**

***M (Medium Residential)*** (12.1 to 25 dwelling units/gross acre). The Medium Residential category permits a maximum of 25 dwelling units per gross acre. This category includes a higher density variety of multifamily unit types, up to three stories in height.

***SC (Service Commercial)*** The Service Commercial category allows low to medium intensity retail, office, or other commercial uses that serve primarily the local area patrons and do not include more intense general commercial characteristics. Examples include neighborhood shopping centers, theaters, bowling alleys and other places of public assembly and public and semi-public uses. This category also includes offices either individually or grouped as office centers with professional and business services.

## **ANALYSIS**

The subject parcel is currently undeveloped. The proposed General Plan Amendment from SC (Service Commercial) to M (Medium Density Residential) will allow the development of the proposed apartment complex.

The site is located within the Neighborhood Revitalization Strategy Area of the 2020 Master Plan, which has policies encouraging infill development. Objective 2.1 of that Strategy Area is “To focus residential reinvestment on transitional sites within the central city area at densities that support mass transit usage”. The redevelopment of this parcel with a quality multi-family product will be an enhancement to the area, as well as carry out the policy intentions of the Neighborhood Revitalization Strategy Area.

## **FINDINGS**

Section 19.18.030.I of the Las Vegas Zoning Code requires that the following conditions be met in order to justify a General Plan Amendment:

1. The density and intensity of the proposed General Plan Amendment is compatible with the existing adjacent land use designations,
2. The zoning designations allowed by the proposed amendment will be compatible with the existing adjacent land uses or zoning districts,
3. There are adequate transportation, recreation, utility, and other facilities to accommodate the uses and densities permitted by the proposed General Plan Amendment; and
4. The proposed amendment conforms to other applicable adopted plans and policies that include approved neighborhood plans.

In regard to “1”: This proposed General Plan Amendment to the M (Medium Density Residential) category will allow the development of apartments on the subject site. This use will be compatible with the existing commercial uses to the east and south and the residential uses to the north and west.

In regard to “2”: The proposed M (Medium Density Residential) land use is compatible with the existing R-3 (Medium Density Residential) zoning of the property. The proposed apartment development is planned for 25.00 dwelling units per acre which is consistent with both the existing zoning and the proposed General Plan designation of this site.

In regard to “3”: Access to the site is provided by 23<sup>rd</sup> Street, a 60-foot wide local street which will not be adversely impacted by this request.

In regard to “4”: The subject area is located within the Neighborhood Revitalization Area of the Las Vegas 2020 Master Plan. An objective in this area is: “To improve the amount and quality of infill development on vacant and underutilized lands within established areas of the City (Objective 2.6).” The reclassification of the subject property will enable this property to develop at a density that is compatible to existing adjacent development and further this objective of the Las Vegas 2020 Master Plan.
